FMI Double Match Program

_____ I would also like to participate in the FMI double match program. This requires a separate form and is subject to the guidelines listed below.

The Tax Credit donation rules DO ALLOW for a donor to designate their funds for the school activity(ies) of their own child/children. HOWEVER, if a donation is designated in this way, IT IS NOT ELIGIBLE FOR A MATCHING GIFT from the FMI Foundation. Donations made by employees of Freeport-McMoRan that are used in any of the following ways DO NOT QUALIFY FOR THE MATCHING GIFTS PROGRAM:

- Tuition or any other academic fees or payment made for the employee's own child/children.
- Any donation or payment made to cover the cost for an employee's own child/children to participate in any type of club or activity, including travel expenses for student trips.
- Funds for school event fees or tickets that will be used by the employee or any member of their family.
- Any donation or payment for any kind of school books, publications or equipment for the employee's own child/children.
- ANY OTHER type of goods or services paid for by the employee that benefits his/her own child/children, even if the payment is called a "donation".

If you have any questions or doubts about the eligibility of your donation, please call or email Diana Whiteaker (602)366-8318 or email: dwhiteak@fmi.com PRIOR to making your donation.
